

# Annual Security Report

This Report is published by the Ohio Center for Broadcasting – Columbus Campus (the “School”) to provide information to students, staff and visitors to the School about incidents of crime, crime prevention procedures, and safety measures so that these campus community members can make informed decisions related to their safety. The School does not provide residential dormitories or any other facilities for on campus student housing, so the information reported herein relates to the school’s campus itself as well as the parking lot areas surrounding the school. This information is presented in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (known as the “Clery Act”). The School’s Campus Director has primary responsibility for collecting and publishing crime statistics related to campus operations, and obtains statistics from the Whitehall, Ohio, Police Department.

## Campus Security

As a small institution, the School does not employ dedicated security personnel. However, all staff members are empowered to take action in case of natural disasters, medical emergencies, or criminal activity by immediately involving campus administration as well as the local police. The campus also maintains a closed-circuit TV (CCTV) system which monitors many parts of the campus and records activity that may help to prevent criminal activities, or apprehend the perpetrators using the video recordings maintained by the School. Staff members are also responsible for securing the campus after hours and also unlocking the campus facilities at the beginning of the day.

## Campus Security Assistance

All staff members are instructed to assist in the prevention of and/or investigation of on campus crimes, and for immediately reporting these matters to the Campus Director and, where situations require immediate outside assistance, to summon local police and/or emergency services.

## How to Report Crimes or Incidents on Campus

All students and staff members are encouraged to promptly contact and report on campus crimes to the Campus Director and to the Whitehall Police by dialing 911 from a cell phone, or 9-911 from any telephone within the campus. In any such reporting, students and staff are encouraged to furnish all pertinent information when reporting a crime or incident. Local police, working in conjunction with School staff, investigate incidents and prepare the required police reports. Such efforts include identification of responsible parties, violations of the School’s Code of Conduct (as printed in the School Catalog), and encourage resolution and restitution of property as appropriate. **Crimes or incidents occurring on campus may be reported to any staff member**, including instructors, Graduate Assistants (GAs), and administrative staff members. All crimes reported to campus officials are also included in the campus’s crime statistics and are also reviewed for compliance with the timely warning policies listed below.

### Timely Warnings Policy Statement

The Campus Director collects, assembles and maintains the yearly crime statistics presented at the end of this Report, and is also charged with providing timely warnings to students and staff members with respect to criminal activity. While the School undertakes diligent efforts towards providing a safe and secure campus, occasional incidents may occur on campus or in the immediate vicinity of the campus which are considered potentially threatening (or the School learns of activity in the immediate area of the School from local law enforcement). When the school is made aware of such information, the Campus Director (or if the Campus Director is absent, the Campus Education Director or Coordinator) will make the campus aware of the situation by various means, including but not limited to making an announcement over the school's paging system, dispatching staff members to convey information in person to each class, or in some circumstances notifying campus stakeholders via cell phone or text. **If any student or staff member knows of a crime or other serious incident, they should report the matter as soon as possible to the Campus Director or dialing 911 (or 9-911 from a campus telephone) so that a timely warning may be issued.**

### Emergency Response and Evacuation

Upon confirmation to the Campus Director or senior administrative staff member present of an imminent threat to health or safety (tornado, individual carrying a firearm, hazardous material spill, etc.), that individual will provide an emergency notification immediately by using the School's paging system, directly addressing pending classes, or other means to provide immediate communication with those within the campus facility. When notified via the paging system or other method, students and staff members will be given immediate instructions as to the action to be taken to ensure health and safety (e.g. directions on where to seek shelter inside the building, to evacuate the building, or to remain in place pending further instructions). Other emergency notification methods may include the posting of flyers and use of text messaging or cellular phone calls.

More specific Emergency Response and Evacuation instructions are contained in the School's Campus Emergency Plan, available in the Campus Director's office and in the Learning Resource Center. The Campus Emergency Plan is regularly updated to reflect best practices and new information.

### Access to the Campus

The School's building is secured and locked at the conclusion of each day's classes and student activities. Where campus facilities require access via key card, if any, appropriate key cards will be provided to staff and students. All students must leave campus at the conclusion of the day's activities. When closed, the campus is protected by wired and wireless motion and glass break sensors, door and window triggers, and monitoring via the School's CCTV system. Students are not permitted on campus unless staff members are also present. Other than prospective students visiting campus, only students and staff members are permitted to be on campus. Neither students nor staff members may have family or friends accompany them without first receiving approval from the Campus Director.

### Basic Crime Prevention Steps

Crime prevention is the responsibility of all students and staff members. Taking the time to think about vulnerabilities will allow us to take simple steps to reduce the risk of being the victim of a crime. Common sense steps can make a big difference:

- Keep your car locked, and do not leave valuables in plain sight within your car
- Mark valuable possessions (headphones, tablet computers, etc.) with identifying information such as your driver's license number
- Never leave your purse or other valuables unattended in a classroom, studio or the LRC
- Let a staff member know if you desire an escort to your car when leaving at night
- Report all crimes and suspicious activities to School authorities
- If you witness an immediate threat, call 911 immediately (or 9-911 from an on campus phone).

### Substance Abuse Policy

The School maintains a Drug Free Policy which is distributed to all students and staff at time of employment or enrollment, and at least annually thereafter. The School prohibits the possession, use, manufacture or distribution of illegal substances (regardless of quantity) or drug paraphernalia of any kind. The use of alcohol while on campus is also strictly prohibited by this Policy. Students or staff who violate the Drug Free Policy are subject to disciplinary action, including dismissal from the School, and also face prosecution under local, state and federal laws.

A copy of the School's Drug Free Policy is appended to this Report along with the School's crime statistics.

### Substance Abuse Assistance

Any student or staff member seeking help with a substance abuse problem, or obtaining assistance for someone they know who has a substance abuse problem, can bring these concerns to the Campus Director (for employees) or the Student Services Coordinator (for students) to receive a timely referral. In addition, help with substance abuse problems can also be obtained by contacting the following local agencies:

### Sexual Misconduct & Dating Violence

The School makes consistent efforts to assure that campus is free of sexual misconduct (including sexual harassment and sexual assault/rape) and all forms of sexual intimidation, exploitation and dating violence including stalking and domestic violence. The School's policies regarding sexual misconduct and dating violence are outlined below. Sexual misconduct will not be tolerated at the Ohio Center for Broadcasting, and students, staff, and visitors should expect the School to be an environment free of sexual misconduct. Such misconduct is not only a violation of the School's policy, but also can be criminal conduct and discrimination under Title VII of the Federal Civil Rights Act of 1964 (as amended).

The following definitions apply to the identification and investigation of sexual misconduct:

- *Consent* – the voluntary, positive agreement between participants to engage in a specific sexual activity.
- *Dating Violence* – violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of this type of relationship is determined based on consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the people involved.
- *Domestic Violence* – a pattern of abusive behavior in any relationship that is used by one partner to gain or maintain power and control over another intimate partner. Domestic violence can be physical, sexual, emotional, economic or psychological actions or threats that influence the other person. This includes behavior that intimidates, manipulates, humiliates, isolates, frightens, terrorizes, coerces, threatens, blames, hurts, injures, or wounds someone.
- *Stalking* – a pattern of repeated and unwanted attention, harassment, contact, or any other course of conduct directed at a specific person that would cause a reasonable person to feel fear for his/her safety or for the safety of those around them, or suffer substantial emotional distress.
- *Sexual Assault/Rape* – the penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.
- *Sexual Harassment* –unwanted sexual attention such as staring, leering, ogling, sexual teasing, jokes, gestures, inappropriate touching, pressures for a date or sex, forced sexual relations or suggestions that sex can be exchanged for academic achievement or promotion. While women are more commonly victims of sexual harassment, it can happen to both men and women.

Sexual harassment may occur when a person in a position of power, control or influence over the other person's academic career, grades, or job uses this authority and power to gain sexual advantages and threatens or punishes the victim for refusal to engage in certain activities. Sexual harassment may also occur between peers (such as student to student, or staff member to staff member) if similar conditions as noted above are present.

**An individual who feels he or she is the victim of sexual misconduct should immediately report the incident to the Campus Director or any other administrative staff member with whom the victim is comfortable.** Formal charges may also be made directly to local law enforcement, and in either case, staff will assist in the investigation of the incident.

If any staff member or student observes or is made aware of an incidence of dating violence, domestic violence, sexual assault, or stalking occurring on campus, this matter should be immediately reported to the Campus Director. Individuals immediately witnessing such an incident and believing that immediate police intervention is needed should call 911 (or 9-911 from a campus phone). Other safe intervention options for the observer include the following:

- Notify a School staff member immediately
- Be honest and direct in attempting to diffuse the situation – do not use violence
- Recruit the assistance of those nearby
- Keep oneself safely away from the incident

**If you are sexually assaulted, it is extremely important that any physical evidence be preserved.** The following are recommended steps:

- Find a safe place sufficiently away from the attacker and call 911 (or 9-911 from a campus phone) immediately! If possible, ask a trusted friend to stay with you until help arrives.
- As soon as possible, write down everything you can remember about the incident including the details of what happened and the physical description of the assailant. Take photos of any physical evidence, including any visible injuries.
- If the incident occurs on the School's campus, immediately dial 911 and seek staff member assistance. Staff members will provide immediate assistance including contacting law enforcement on your behalf.
- You should immediately seek medical attention, even if you do not believe that you have been injured. It will still be important to test for sexually transmitted diseases and/or pregnancy. Hospitals should be asked to conduct a "rape exam," and also to obtain a urine or blood sample if you believe that you may have been drugged.
- Contact an agency for counseling and support, including:
  - Sexual Assault Response Network of Central Ohio (SARNCO) 24 hour Hotline: 614-267-7020
  - -National Sexual Assault Hotline: 800-656-4673
  - National Domestic Violence Hotline: 800-799-7233

### **Institutional Protective Measures**

The school will assist victims of sexual misconduct and dating violence to avoid potential contact with the perpetrators to the fullest extent possible, by reassigning staff members or altering student class sessions or schedules. The School will also assist in enforcing any On-Campus No Contact Order that is issued, prohibiting communication among

involved parties (this includes contacts that are in person, via telephone, text message, social media, etc.).

### Disciplinary Process (Code of Conduct)

In addition to the Conduct and Behavior provisions published in the School catalog applicable to Students and the provisions of the Employee Handbook applicable to staff members, the School also follows the following procedures:

- Complaints that allege violations of the School's Policies are to be reported to the School (typically to the Campus Director) no more than two weeks after the party bringing the allegation becomes aware of the alleged offense.
- Campus management, including the Campus Director and other senior school officials, will immediately begin an investigation of the matter.
- Any disciplinary meetings will be conducted as soon as possible after the conclusion of the investigation and appropriate action taken. In such meetings, the school will utilize a "preponderance of the evidence" standard of review.
- In any meetings in which the accuser will be present, that person may bring a person of their choice with them to the meeting to provide support.
- The person accused of the offense will also have the opportunity to appear and answer the charges, and may also bring a person of their choosing to the meeting.
- Both accuser and accused will be treated with professionalism and dignity in such meetings.
- Any staff member or student found in violation of the School's policies or other applicable law will be subject to disciplinary sanctions including suspension, probation, dismissal, expulsion, termination and prosecution, each as stated in the School Catalog with respect to students, and the Employee Handbook with respect to staff members.

<sup>1</sup> All trafficking offenses involving Schedule I and II substances (and gamma hydrobutyric acid and flunitrazepam) are subject to the same imprisonment penalty—20 years to life—if death or serious bodily injury results from the use of the substance involved. Unless otherwise indicated, weights apply to any mixture containing a detectable amount of the substance regardless of the weight of the substance in the mixture.

A reference to a fine of "\$5/25 million" means a fine of no more than \$5 million for an individual and no more than \$25 million for a defendant other than an individual. A reference to "10 years to life" means a term of imprisonment of not less than 10 years nor more than life.

The Synthetic Drug Abuse Prevention Act of 2012—Subtitle D of Title XI of the Food and Drug Administration Safety and Innovation Act (P.L. 112-144)—added "cannabimimetic agents" to Schedule I of the Controlled Substances Act and defined such term to mean one of five structural classes of synthetic cannabinoids (and their analogues). Synthetic cannabinoid products are sometimes referred to as "synthetic marijuana," "Spice," or "K2." The act also added 11 synthetic stimulants and hallucinogens to Schedule I, including methylenedioxypyrovalerone (MDPV), a chemical ingredient found in designer drugs commonly referred to as "bath salts." The criminal penalties applicable to unlawful trafficking of these synthetic drugs are the same as those described below the "Any other Schedule I substance" table rows. In addition, any offense listed in this report that refers to "all substances" now encompasses these synthetic drugs. Any offense

<sup>32</sup> The Ultralight Aircraft Smuggling Prevention Act of 2012, P.L. 112-93, expanded the liability for this offense to include anyone who attempts or conspires to commit aviation smuggling, thus subjecting them to the same penalties as those who commit the crime. In addition, this law added a definition of “aircraft” to include ultralight vehicles which meet the characteristics described in 14 C.F.R. 103.1. Such ultralight vehicles (operated by a single occupant and weighing less than 254 pounds) have reportedly been used by drug traffickers to cross the Mexico-U.S. border in their effort to smuggle the drugs into the United States.
