

## LOOKING TO EXPAND YOUR CAREER IN FILM OR VIDEO PRODUCTION?

For more than 30 years, our Media Schools have trained students in a wide range of skill applicable to the broadcasting industry using fully equipped Radio and TV Studios. All instructors are professionals in the broadcasting industry, including local on-air radio and TV personalities. Students are trained in all aspects of broadcasting, qualifying them for entry-level positions in a wide variety of media related careers.

- Accredited by the Accrediting Commission of Career Schools and Colleges.
- Financial Aid available for those who qualify.
- Job placement assistance is available to all graduates of the programs.
- Core program in Radio and TV Broadcasting only 8 months, and Certification in Film or Video Production only 6 months.
- Day classes, night classes, and online classes to meet your schedule.

Whether you're a film producer, video editor, on a camera crew, or a graduate of our Core program, we have the courses, technology, and professional faculty to help you launch your career in the film and video industry.

Our film production courses offer the tools you'll need to succeed behind the lens and in the production studio. Ready to take your film production career to the next level?

Our courses are taught by veteran professionals within the film and video production field at our campus cities—Chicago, Miami, Denver, Cleveland, Cincinnati, and Columbus.

## OVERVIEW

The Film and Video Production Program provides contemporary and traditional skills in modern production of digital video content. The program helps the intermediate or experienced multimedia professional learn modern video style and technical skill. The program covers film and TV history, pre-production, lighting, shooting, editing, and special effects, preparing students for the ever-changing field of film and video production.
